

# CREATION

*Verse 1* I can see the sky, the trees, hills and mountains, fields and fountains,  
A slice of peace, mice and geese, show a picture of a boa constrictor.  
Gorillas angry at every inclination...it's creation!

*Verse 2* Do be still, see the dew distill... the dawn sings for me to the sun's symphony.  
To the desert sands while the pheasants dance  
In flight to the *Fandango*, and me I like mangoes.  
Hear the pigeons in their intonation...it's creation!  
In the air's the rhythm of their orchestration...it's creation!

**Chorus** **From the grounds to the heights, the sounds and the sights,  
The browns and the whites, amen, amen!**

*Verse 3* Death and pain, rebirth again, rewind the craziness, what kind of days are next?  
Soul & blood, hope & love, displace the hate and cold, don't place your faith in  
gold.

Civilization, tragic operations, man's recreation.  
In every nation, messianic expectation of the New Creation.

**Chorus** **All that's been and all that's new is for me and for you,  
See the green and the blue, amen, amen!**

*Bridge* From the first to the least, they all quest to be in peace.  
From the west all the way onto the east, all the birds, all the beasts.

*Verse 3* Hey, I can see the skies, the seas, the wild, the weak - they hide and seek  
Like my little niece, beetles, bees, they all live to tango, and me I really like  
mangoes.

The reason why the earth is in rotation is the Father's creation.  
And Jesus Christ in death became salvation to gather creation.  
Yeah, the reason why the world is in rotation is creation.  
And Jesus Christ our Lord is the salvation of creation.

# GARDEN

*Verse 1* I want to go to the place, all alone, where only we know.  
I want to go to the place in my soul where only we know.

*Verse 2* How beautiful is the place where I go with You Lord alone.  
A hidden cove is the place where streams flow, there You rest my soul.

**Chorus** **A garden enclosed, where living water flows, is the place where we go.**

*Verse 3* I want to go to the place, through the groves, where Your spices grow.  
Aloes and myrrh in the place, and we're alone where only we know.

*Verse 4* Oh hurry on, Jesus haste, let us go to my hungry soul.  
When wine and bread is replaced, we'll be alone where only we know.

**Chorus** **A garden enclosed, where living water flows, is the place where we go.**

*Bridge* Oh, oh, oh, oh, oh, oh, oh, oh, oh, oh.

*Verse 5* I want to go to the place, all alone, where only we know.  
Your name is sweet to my taste, to my soul, and we're all alone.

*Final* A garden enclosed, where living water flows, is the place where we go.  
A garden enclosed, where living water flows, is the place where we go.

# HEAVE-HO

*Verse 1*      Once upon a time I bought a one-way ticket to a distant place,  
 I said goodbye to mama as I kissed her face,  
 I walked through bushes and I swam seven lakes,  
 On my way to heaven's grace.  
 I changed my name, and my aim, the stars now my trajectory,  
 Then I tied some rope around my waist to set me free,  
 I said to the Lord "Break me!" and then I said "Heal me!"

**Chorus**      **As I go heave-ho, hey-ho,  
 See I go heave, I go ho, and I go,  
 Me I go heave-ho, hey-ho, amen.**

*Verse 2*      So, I found that I'm a man from the ground molded in clay,  
 And I'm bound by vows that loosen my weaknesses each day,  
 And when night falls I lay me on the earth and I fly away,  
 To hidden places in the skies lit by the Son's rays.  
 So, thank you, thank you, and now for my next terrific act!  
 See there's really none cos I'm saved by one salvific act,  
 And I'm healing and I'm singing my Magnificat,

**Chorus**      **As I go heave-ho, hey-ho,  
 See I go heave, I go ho, and I go,  
 Me I go heave-ho, hey-ho, And I go heave-ho, hey-ho... (to bridge)**

*Verse 3*      So, I put on my glasses and I look to heaven to save me,  
 Like the Wise Men, star-gazing, some say I'm crazy,  
 And I'm driving with a bumper sticker that says "Save the babies!"  
 Some say life's just a choice to be made by the free (*mmm mmm*).  
 So, the way of the Cross is the road that identifies me,  
 And I crave for the Blood of the Lord to energize me,  
 And the grey means "Lord, photosynthesize me!"

**Chorus**      **As I go heave-ho, hey-ho,  
 See I go heave, I go ho, and I go,  
 Me I go heave-ho, hey-ho, And I go heave-ho, hey-ho, amen.**

# HOLLOW

*Verse 1* Follow, I'm following You  
Follow, I'm following You  
Away, where you find me, I be

Hollow, I'm hollow without You  
So I follow, I'm following You  
Away, where you go  
I lay and rest my soul  
Away, where you find me, I be  
With my Lord and resting

**Chorus** **In the hollow of His hands**  
**In the hollow of His hands**  
**I be**

*Verse 2* Follow, I'm following You  
Cos I'm hollow, I'm following You  
Away, Spirit blow  
I lay and rest my soul  
Away, where you find me, I be  
With my Lord and resting

**Chorus** **In the hollow of His hands**  
**In the hollow of His hands**  
**In the hollow of His hands**  
**I be**

# LET GO!

*Verse 1* If I was a spaceman, or if I was a statesman,  
I'd shout to the whole world to have a little faith and  
If I was a lamplight, I'd shine in the dark night  
A little bit of love just might lift you up to the heights.

*Verse 2* Now, if I was a preacherman, or a mathematician,  
I'd show you that you're one in a billion, and we don't need no division.  
Grow with the seasons, gush like a river,  
Flow through the cisterns, wash the new believers.

*Pre-chorus* If I was a seedling, I'd grow in your hearts ground.  
If you'd only listen, oh for crying out loud!

**Chorus** **10, 9, 8, 7, 6, 5, 4, 3, 2, 1, let's go blasting through the skies!**  
**Set you path to the Lord, see your heart's made to soar!**  
**10, 9, 8, 7, 6, 5, 4, 3, 2, 1, let go, let God!**

*Verse 3* If I was an optician, I would change the world's vision,  
But see, I'm just a fisherman who'd like to take you fishing.  
Now, I am just a man on a mission, with the keys to the ignition,  
Trying to bring you to the recognition that you're kings, if you'd only listen.

*Pre-chorus to chorus*

*Final* Set you path to the Lord, see your heart's made to soar!  
Set you path to the Lord, see your heart's made to soar!  
Set you path to the Lord, see your heart's made to roar!  
Set you path to the Lord, see your heart's - for crying out loud!

REST

*Verse 1* Do you know the path that goes along the valley's roads  
Where the wind blows not its breath?

Have you seen the darkest shades and walked the starkest ways  
Where the seeds know not the earth?

*Verse 2* And do you know the stream that fills the river by the hills  
Where all tears come from?  
And have you sung the song men sing when winter turns not spring?  
Do you yearn to see the Son?

*Pre-Chorus* Now, some believe the home that hope lives in  
Is beyond the seas, through storms and cold seasons.  
But come and see where the road begins.  
(Yes,) I believe that it grows in me

**Chorus** **If you believe**  
**And hold your cross now, on your quest**  
**Then you'll be free,**  
**Only trust now, and Christ will be your rest.**

*Verse 3* Do you know the road that leads along through sorrows meads  
Where the trees bring not to birth?  
And will some reciprocity of love you've not received  
Bring release from the depths? (*To chorus*)

*Bridge* It's near, it's deep inside your soul.  
It's here we find the streets and roads  
To where the Tree of Life grows  
Can you hear the Spirit blow, the Spirit blow?

*Chorus* If you believe  
And hold your cross now, on your quest  
Then you'll be free,  
Only trust now, and Christ will be your rest.

# RISING

*Verse 1* I believe there's a morning not followed by night  
When all the blind that are calling will be given new sight  
I believe that all children who come to You Christ  
Are free cos You heal them, You hear all our cries

**Chorus** **I believe in Your Love**  
**I believe in Your Love**  
**And that You heal all the fallen**  
**And with You we're rising**

*Verse 2* I believe in Your mercy, like oceans it flows  
For all who are thirsty, for all our sorrows  
I believe we'll rise higher with hearts made low  
And that Your heart is a fire when it's dark and it's cold

**To Chorus**

*Bridge* And it is well with my soul  
It is well with my soul  
Cos You heal all the fallen  
And with You we're rising  
Yeah You heal all the fallen  
And with You we're rising (2x)

# SONG OF THE BELOVED

*Verse 1* Oh, I hear my Love, see how my Love comes  
Leaping on the mountains, bounding over hills.  
My love is like a gazelle, like a young stag.

*Verse 2* See where my Love stands behind our wall.  
My Love looks in at the window, my Love peers through the opening.  
My love is like a gazelle, like a young stag.

**Chorus** **So, come then, my beloved, come.**  
**Come then, oh my lovely One.**  
**For see, winter now is past**  
**And the rains are over and long gone.**

*Verse 3* Flowers are appearing on the earth, the season of glad songs has come,  
The cooing of the turtledove can be heard in our land.  
And the fig tree forms its first figs, and the vines, they smell so sweet.

*Verse 4* My dove, hiding in the rock cleft, in the coverts of the cliff,  
Show me your face, let me hear your voice;  
For your voice is so sweet and your face is lovely.

# STARLIGHT

**Chorus**      **Our God has appeared on the earth**  
**To save men from death (2x)**

*Verse 1*      By a starlight, by the night light  
See how God comes.  
By the moonlight, hear no words,  
Only worlds meet.  
And I shall, like a bird,  
Fly to heaven, oh, oh.  
O Bethlehem, do you see  
This light upon you?

*Verse 2*      Bright as starlight, and as the night hides  
See how God comes.  
As the sunrise from the east  
Comes with the morning.  
And I shall, with the rising sun,  
Climb to heaven, oh, oh.  
O earth when will you see  
This light upon you?

*Bridge*      Divine light shine, divine light shine on me.

*Final*      O see, a starlight!

# THIS IS MY FAITH

This is my faith.  
 Sown in clay – these seeds awake.  
 Growing in the rays and in the breeze that breaks me open.  
 I crave to breath, to blaze to be freed, I wait, groping, hoping  
 for day to release my faith, for the word spoken to seize my faith,  
 exploding like hydrogen nitrate, I wait  
 for a token to increase my faith.

See I once was broken and deceived by hate. I leased my faith for a price  
 and with Visa I paid for the lie that impedes my way till I  
 was diseased, deceased by sins that plagued my beliefs, my faith.  
 I was brought to my knees. I prayed till my Levis faded, naked,  
 I waited, I waited for the Lord, to be awakened.  
 And He opened up the door to let me breathe...

This is my faith. These words,  
 escaping, they flee my mouth, penetrating by screams and shouts,  
 liberating within the doubt that's suffocating the streets without.  
 Waiting to be translated, announced, like sound checks.  
 Resuscitating, they bounce like unsound checks.

See, my faith I dissect and I stir it like a mixture,  
 and I weigh the effects and compare it with the scriptures,  
 and I play, I eject, till I wear it like a cincture – and it's nearly an addiction!  
 Can you hear it, am I switched on? Testing, testing...  
 Open up the door let me breathe, oh Lord...

This is my faith.  
 And on my tongue it's the creed, n' in my lungs it's the breathing,  
 And as long as I'm living, it's my song, it's my rhythm  
 till I'm hung and I'm bleeding...it's all that I'm given.  
 It's all that's handed down to us – it's not calculus.  
 It's not mathematics or addition.  
 It's the Mass, it's the vision. It is love...the Tradition.  
 And I ask the Mediatrix to keep me strong in my mission.

So subtract the attractions and retract back the factions,  
 and with one, holy, universal action re-ignite.  
 And when underlined by the Passion, we define a fraction  
 that's equal to the value of life.  
 Cos see, faith is indivisible by hate or the physical,  
 or ways that Beelzebul equates to make believable – the lies he multiplies.

And so I searched till I did find what the truth really is.  
 That the flesh of the Christ is the food that He gives.  
 And the Church is alive and the proof that He lives.  
 And so I rest in the light and I choose to believe.  
 And in my quest I'll arrive and be soothed and relieved – and be freed  
 Cos Christ opens up the door to let me breathe...  
 This is my faith.

# WHEN YOU COME

*Verse 1* I want to see the One I love,  
I want to see my Love,  
I want to see the One I love,  
I want to see my Lord, my Love.

*Verse 2* I want to be with the One I love,  
I want to be with Love,  
How sweet to be with the One I love,  
how sweet to be with Love.

*Pre-chorus* Cos the fairest of loves is my Lord, my all,  
And Your heart is the place where I rest.  
The fairest of loves is my Lord, my all,  
And Your heart is my home, is my rest.

**Chorus** **And when You come I'll see You, my Love,**  
**And when You come I'll be with You, my Lord,**  
**And when You come I'll sing to You, my Love,**  
**But then You're always with me Lord.**

*Verse 3* I want to sing to the One I love,  
I want to sing my love,  
How sweet to sing to the One I love,  
how sweet to sing my love.

*Bridge* And when You come, when You come, You will show me Your face,  
And when You call, when You call, I will go, I will chase,  
I will run, I will come to Your home, to Your grace,

But then You're always with me Lord,

But then You're always with me Love.
